ACTIVATED CARBON
Activated carbon reclaims water for carpet mill ..... May C-22
The selection of granular versus powdered activated carbon .....Feb. 49
Tertiary treatment of combined wastewater with granular activated carbon .....Sept. 58
Thermophilic activated sludge process .....Mar. 47

ACTIVATED SLUDGE
Detroit's sewage treatment process improvement—oxygenation .....Oct. 44
New sewage technology tested atop Pikes Peak ..... Nov. 54
Novel biological treatment process utilizes unique redwood media .. Aug. 34
Thermophilic activated sludge process .....Mar. 47

ADMINISTRATION
A personnel outlook for industrial waste control programs .....Mar. B-8
Technology and environmental control .....Dec. 49
The nation's utility regulators .....Apr. 52

ADVANCED WASTE TREATMENT
Advanced waste treatment in Nassau County, N. Y. .....Feb. 38

AERATED LAGOONS
Liberty, S. C., textile finishing waste .....May C-6
Unique dual lagoon system solves difficult wine waste treatment problem .....Nov. F-2

AERATION
Reservoir mixing and aeration system .....Mar. 50
Water quality and instream aeration ..... Sept. E-23

AEROBIC DIGESTION
Sewage plant designed for fluctuating population .....Jan. 40

AIR CONDITIONING
Three cell oxidation ponds work better than one—laboratory studies show .....Nov. F-26

AIR POLLUTION
An industrialist's concern for the environment .....Oct. 58
The solution of air pollution can cause water pollution .....Nov. F-10
Who manages our environment? .. May C-8

ALGAE PROBLEMS
The effect of pollution on marine plants .....Oct. 55

ANAEROBIC DIGESTION
High-rate anaerobic sludge digesters prove economical, easy to operate, in N.J. sewer plant .....Dec. 43

AUTOMATIC CONTROL
Feedforward control for desalination processes ..... Jan. A-1

AWARDS
Armco's pollution control facility wins ASCE award ..... May C-12

AWWA
AWWA honors outstanding members .....July 48

BIOLOGICAL TREATMENT
Detroit's sewage treatment process improvement—oxygenation .....Oct. 44
In-the-building oxidation ditches for livestock wastes ..... Sept. E-23
Novel biological treatment process utilizes unique redwood media .. Aug. 34
Theory and practice in biological treatment process ..... Jan. A-11
Three cell oxidation ponds work better than one—laboratory studies show .....Nov. F-26
Utilization of wastewaters ..... Sept. E-2
Water conservation and reuse by industry ..... Jan. A-17

CANNERY WASTES
A treatment process for strong cannery wastes .....Mar. B-1

CHEMICAL ANALYSIS
Electronic laboratory equipment . . .Mar. 38

CHEMICALS
Chemicals used in water and wastewater treatment/3 .....Jan. 53
Chemicals used in water and wastewater treatment/4 .....Feb. 54
Chemicals used in water and wastewater treatment/5 .....Mar. 65
Chemicals used in water and wastewater treatment/6 .....Apr. 69
Chemicals used in water and wastewater treatment/7 .....May 52
Chemicals used in water and wastewater treatment/8 ..... Aug. 40

CHEMICAL TREATMENT
Alum recovery for filtration plant waste treatment ..... June 78
Armco develops cold mill waste oil treatment process .....Mar. B-16
Middlesex Water Co. plant adds 20 mgd to water supplies of five New Jersey towns ..... June 74

CLARIFICATION
Single-stage lime clarification of secondary effluent .....Mar. 43

COAGULATION
Buffalo plant examines its pretreatment facilities—but more testing is needed .....Dec. 47
Coagulation and filtration at Melbourne, Fla. ..... Nov. 38
High rate sedimentation and filtration/1 ..... June 65
High rate sedimentation and filtration/2 .....July 35
Technologies in coagulation ..... Jan. 42
What is high-rate filtration? ..... Jan. 47

COLLECTION SYSTEM
Can polymers help your collection system? ..... Nov. 47

COLOR
Massive lime dosing combats color of pulp mill wastewater .....Nov. F-12

COMPUTERS
Computer aids in CRAG water plan .Apr. 49
Feedforward control for desalination processes ..... Jan. A-1

CONSERVATION, WATER
Agriculture faces new challanges in current environmental crisis .....Nov. F-14
Water conservation and reuse by industry ..... Jan. A-17

CONSTRUCTION (GENERAL)
Boston still faces a pollution control problem ..... Sept. 44
Sewage plant designed for fluctuating population .....Jan. 40

CORROSION CONTROL
Performance of stainless steel in desalination plants ..... Jan. A-13

CROSS-CONNECTIONS
Backflow prevention hardware/1 .. Sept. 53
Backflow prevention hardware/2 ...Oct. 47
Backflow prevention hardware/3 .. Nov. 51

CYANIDE WASTES
Process change reduces plating wastes .....Jan. A-9

DAMS
Oroville Dam power plant uses Teflon-based slide bearings .....Jan. 38

DEEP WELL DISPOSAL
Waste disposal well performance . July D-14

DENTRIFICATION
Phosphate/nitrate removal with effluent polishing is put to the test ..... Nov. 49

DESALTING
A new desalting process . . . .Apr. 61
Design and operation of large desalting plants .....Feb. 35
Feedforward control for desalination processes ..... Jan. A-1
Performance of stainless steel in desalination plants ..... Jan. A-13
Reverse osmosis offers useful technique for desalting ..... Jan. A-5

DESIGN
Armco's pollution control facility wins ASCE award ..... May C-12
Coldwater Creek wastewater treatment plant .....Apr. 44
Computer aids in CRAG water plan .Apr. 49
Best features of four existing plants highlighted in new Detroit water facility .....Dec. 50
Geneva, N. Y., improves water treatment plant .....July 38
Liberty, S. C., textile finishing waste .....May C-6
Low-cost ways of stabilizing . . . liquid and solid organic wastes .....May 54
Middlesex Water Co. plant adds 20 mgd to water supplies of five New Jersey towns ..... June 74
New activated sludge plant for Knoxville, Tenn. ..... Jan. 32
New Brighton, Pa., acquires 6-mgd water plant .....July 32
Sewage plant designed for fluctuating population .....Jan. 40
The engineer/architect team .....Sept. 51
Treatment plant designed for frozen meat wastes .....May C-5
Wastewater treatment plant in Plant City, Fla. ..... Jan. A-22
Western Branch wastewater plant, Hampton Roads, Va., Sanitation District .....Feb. 42

DESTRATIFICATION
Reservoir mixing and aeration system .....Mar. 50

DEWATERING, SLUDGE
A new device for wastewater treatment sludge concentration ..... Aug. 30

DISTRIBUTION SYSTEMS
The Scarsdale, N. Y., water department ..... Nov. 41
Washington's water supply ..... June 58
Water quality changes in the distribution system .....Jan. 35

EDITORIAL BOARD

METERS/METERING, CUSTOMER
Automatic meter-reading and billing Jan. 44
Central meter reading ..... Sept. 62
Internal process water metering . . . helps control costs ..... Mar. B-24
Sizing water meters for apartments, hotels, motels, and other customers ..... Aug. 28
Volumetric testing of large propeller meters ..... Nov. 40

MINE WATERS
Operation Scarlift comes to Loyalhanna Creek, Pa. ..... Apr. 64

NEW IDEAS
Low cost ways of stabilizing . . . liquid and solid organic wastes . . . May 54

NOMOGRAMS
Flow through A V-notch weir . . Sept. E-10
Flow measurement in a rectangular weir with end contractions ..... May 58
Graphical measurement of triangular weir discharge ..... Sept. E-8
Pump sizes ..... Jan. A-24
Uniform flow in trapezoidal channels ..... Feb. 40

ODOR CONTROL
Sewer odor control ..... July 43

OPINION AND COMMENT
A livable environment . . . Mission for the seventies ..... May 48
Do we need a broker?/2 ..... Mar. 63
External corrosion of buried ferrous pipelines ..... Mar. 54
Limits, constraints, and requirements for water pollution control .... Sept. 48
Personnel recruitment contest winners ..... Apr. 58
Ten years from today is now/1 ... Nov. 45
The nation's utility regulators ..... Apr. 52
Toward a better environment ..... Oct. 60
Who manages our environment? . . May C-8

OXIDATION PONDS
Polypropylene fiber mat and asphalt used for oxidation pond liner ..... Nov. F-17

PACKAGE PLANTS
New sewage technology tested atop Pikes Peak ..... Nov. 54
Treatment plant designed for frozen meat wastes ..... May C-5

PACKING HOUSE WASTES
Waste disposal in the meat industry/1 ..... Mar. B-20
Waste disposal in the meat industry/2 ..... May C-1

PERSONNEL MANAGEMENT
A personnel outlook for industrial waste control programs ..... Mar. B-8

PIPE
Environmental factors considered in design of pulp and paper mill .... Jan. A-20
Large diameter thermoplastic pressure pipe ..... Oct. 62
Muck, sand, and rock no deterrents to laying of 1200-ft sewer outfall . . . Dec. 45
Mzima pipeline . . . The world's longest gravity flow system ..... Feb. 46
New activated sludge plant for Knoxville, Tenn. ..... Jan. 32
New approach to saving a trunk sewer ..... Feb. 44
Sewage plant design for fluctuating population ..... Jan. 40
What you should know about welding fittings and flanges ..... July D-19

PLANNING
A high priority rate: Better management of total environment ..... Dec. 38
A livable environment . . . Mission for the seventies ..... May 48
Chicago plans for adequate water supply ..... June 62
Clean water program gets results .. Nov. 58
Computer aids in CRAG water plan . Apr. 49
Coordinated attack on pollution sees wastes in relation to the total environment ..... Dec. 39
Liquid waste disposal—a job man knows how to do and cannot get done . Nov. F-7
Plans of the Academy of Environmental Engineers ..... July 44
Regional action: Key to the future of San Fracisco Bay/1 ..... May 45
Regional action: Key to the future of San Francisco Bay/2 ..... June 70
Technology and environmental control ..... Dec. 49
The engineer/architect team ..... Sept. 51
Wastewater treatment plant in Plant City, Fla. ..... Jan. A-22
Who manages our environment .... May C-8

PLANT DESIGN
Coldwater Creek wastewater treatment plant ..... Apr. 44
Environmental factors considered in design of pulp and paper mill .... Jan. A-20
Middlesex Water Co. plant adds 20 mgd to water supplies of five New Jersey towns ..... June 74
New activated sludge plant for Knoxville, Tenn. ..... Jan. 32
Sewage plant designed for fluctuating population ..... Jan. 40
Waste treatment plant at Parkville, Mo. ..... Sept. 56
Wastewater treatment plant in Plant City, Fla. ..... Jan. A-22

PLASTIC TUBING
Filtration plant solves corrosion problem ..... Nov. 55

POLLUTION CONTROL
Boston still faces a pollution control problem ..... Sept. 44

POLYMERS
Can Polymers help your collection system? ..... Nov. 47

POND LINER
Polypropylene fiber mat and asphalt used for oxidation pond liner ..... Nov. F-17

PRETREATMENT
Buffalo plant examines its pretreatment facilities—but more testing is needed ..... Dec. 47
Pretreatment of wastes for discharge to city system ..... July D-1

PRODUCT & PROCESS DEVELOPMENT
A new desalting process ..... Apr. 61
A new device for wastewater treatment sludge concentration ..... Aug. 30
Automatic meter-reading and billing ..... Jan. 44
Central meter reading ..... Sept. 62
High rate sedimentation and filtration/1 ..... June 65
High rate sedimentation and filtration/2 ..... July 35
Large diameter thermoplastic pressure pipe ..... Oct. 62
New sewage technology tested atop Pikes Peak ..... Nov. 54
Novel biological treatment process utilizes unique redwood media . . Aug. 34
Phosphate/nitrate removal with effluent polishing is put to the test ..... Nov. 49
Polypropylene fiber mat and asphalt used for oxidation pond liner ..... Nov. F-17
Reservoir mixing and aeration system ..... Mar. 50
Volumetric testing of large propeller meters ..... Nov. 40
What is high-rate filtration? ..... Jan. 47

PUBLIC HEALTH STANDARDS
A livable environment . . . Mission for the seventies ..... May 48

PUBLIC RELATIONS
A personnel outlook for industrial waste control programs ..... Mar. B-8

PULP AND PAPER
An industrialist's concern for the environment ..... Oct. 58
Environmental factors considered in design of pulp and paper mill .... Jan. A-20
Fluidized bed recovers process chemicals ..... May C-14

PUMPS AND PUMPING
Model testing of a complete pumping system ..... Mar. 56
Pump sizes ..... Jan. A-24

PURCHASING PRACTICES
The great debate on . . . The best way to specify, evaluate, and buy equipment ..... May 50

REFERENCE FILE
Chemicals used in water and wastewater treatment/3 ..... Jan. 53
Chemicals used in water and wastewater treatment/4 ..... Feb. 54
Chemicals used in water and wastewater treatment/5 ..... Mar. 65
Chemicals used in water and wastewater treatment/6 ..... Apr. 69
Chemicals used in water and wastewater treatment/7 ..... May 52
Chemicals used in water and wastewater treatment/8 ..... Aug. 40

REGULATION
The nation's utility regulators ..... Apr. 52

RESEARCH
Coordinated attack on pollution sees wastes in relation to the total environment ..... Dec. 39
Do we need a broker?/2 ..... Mar. 63

RESERVOIRS
Oroville Dam power plant uses Teflon-based slide bearings ..... Jan. 38
Reservoir mixing and aeration system ..... Mar. 50

REVERSE OSMOSIS
Reverse osmosis offers useful technique for desalting ..... Jan. A-5

ROUND TABLE WASTES
Personnel recruitment .... Jan. 22, Feb. 16
Purchasing practices ..... Apr. 26, June 48, Aug. 22, Sept. 28, Nov. 17
Solving operating problems ..... Mar. 30

ROUND TABLE WATER
Action Now program ..... May 18, July 18
Purchasing practices ... Jan. 20, Feb. 14 Mar. 18, Apr. 18

SANITARY ENGINEERING
Do we need a broker?/2 ..... Mar. 63

SCREENING
Oroville Dam power plant uses Teflon-based slide bearings ..... Jan. 38

SEDIMENTATION
Buffalo plant examines its pretreatment facilities—but more testing is needed ..... Dec. 47
High rate sedimentation and filtration/1 ..... June 65
High rate sedimentation and filtration/2 ..... July 35

SEWERS
New approach to saving a trunk sewer ..... Feb. 44

SEWER OVERFLOW
Can polymers help your collection system? ..... Nov. 47

SEWER REPAIR
New approach to saving a trunk sewer ..... Feb. 44

SLUDGE DISPOSAL
Disposal of waste sludge from water softening plants ..... Aug. 33
Heat treatment process improves economics of sludge handling and disposal ..... Nov. 42

STABILIZATION PONDS
Three cell oxidation ponds work better than one—laboratory studies show ..... Nov. F-26

STEEL MILL WASTES
Armco develops cold mill waste oil treatment process ..... Mar. B-16
Armco's pollution control facility wins ASCE award ..... May C-12
Treatment of wastewater for steel cold finishing mills ..... Nov. F-22

STREAM POLLUTION CONTROL
Operation Scarlift comes to Loyalhanna Creek, Pa. ..... Apr. 64
Regional action: Key to the future of San Francisco Bay/1 ..... May 45
Regional action: Key to the future of San Francisco Bay/2 ..... June 70
Utilization of wastewaters ..... Sept. E-2

TASTES AND ODORS
The selection of granular versus powdered activated carbon ..... Feb. 49

TECHNOLOGY BRIEFS ..... Jan. 16, Feb. 12, Mar. 14, Apr. 14, May 12, June 14, July 16, Aug. 14, Sept. 22, Oct. 14, Nov. 14, Dec. 16

TERTIARY TREATMENT
Advanced waste treatment in Nassau County, N. Y. ..... Feb. 38
High rate sedimentation and filtration/2 ..... July 35
Santee project continues to show the way ..... May 40
Tertiary treatment of combined wastewater with granular activated carbon ..... Sept. 58

TEXTILE WASTES
Liberty, S. C., textile finishing waste ..... May C-6

THEORY
Theory and practice in biological treatment processes ..... Jan. A-11

TRANSMISSION LINE
Mzima pipeline . . . The world's longest gravity flow system ..... Feb. 46

TREATMENT PLANTS
Coldwater Creek wastewater treatment plant ..... Apr. 44
Geneva, N. Y., improves water treatment plant July 38
Middlesex Water Co. plant adds 20 mgd to water supplies of five New Jersey towns ..... June 74
New activated sludge plant for Knoxville, Tenn. ..... Jan. 32
New Brighton, Pa., acquires 6-mgd water plant ..... July 32
Pretreatment of wastes for discharge to city system ..... July D-1

Sewage plant designed for fluctuating population ..... Jan. 40
Waste disposal in the meat industry/1 ..... Mar. B-20
Waste disposal in the meat industry/2 ..... May C-1
Waste treatment at Parkville, Mo. . Sept. 56
Wastewater reclamation and reuse . . July 46
Western Branch wastewater plant, Hampton Roads, Va., Sanitation District ..... Feb. 42

TRICKLING FILTERS
Novel biological treatment process utilizes unique redwood media . . Aug. 34

TURBIDITY
Single-stage lime clarification of secondary effluent ..... Mar. 43

VALVES
How to calculate cavitation in butterfly valves ..... Nov. F-28
Sizing butterfly valves/1 ..... July D-10
Sizing butterfly valves/2 ..... Sept. E-12

WASHINGTON NEWS ..... Jan. 12, Feb. 10, Mar. 12, B-30, Apr. 12, May 10, C-7, June 12, July 12, D-8, Aug. 13, Sept. 14, E-14, Oct. 10, Nov. 12, F-6, Dec. 8

WASTEWATER CHARACTERISTICS
Massive lime dosing combats color of pulp mill wastewater ..... Nov. F-12
Single-stage lime clarification of secondary effluent ..... Mar. 43

WASTEWATER CLARIFICATION
Single-stage lime clarification of secondary effluent ..... Mar. 42

WASTEWATER DISPOSAL (GENERAL)
Coordinated attack on pollution sees wastes in relation to the total environment ..... Dec. 39
Deep well disposal ..... Sept. E-31
Detroit's sewage treatment process improvement—oxygenation ..... Oct. 44
Best features of four existing plants highlighted in new Detroit water facility ..... Dec. 50

Liquid waste disposal—a job man knows how to do and cannot get done . Nov. F-7
Muck, sand, and rock no deterrents to laying of 1200-ft sewer outfall ..... Dec. 45
Ten years from today is now! ..... Dec. 36
Tertiary treatment of combined wastewater with granular activated carbon . . Sept. 58
The solution of air pollution can cause water pollution ..... Nov. F-10
Unique dual lagoon system solves difficult wine waste treatment problem . . Nov. F-2
Utilization of wastewaters ..... Sept. E-2
Waste disposal in the meat industry/1 ..... Mar. B-20
Waste disposal well performance . July D-14
Waste treatment at Parkville, Mo. . Sept. 56
Who manages our environment? . . May C-8
2020 Vision/2 ..... Apr. 66
60% population jump by year 2000 demands attention now to water problems. ..... Dec. 34

WASTEWATER PLANT CONTROLS
Prefabricated dual lift station .... Sept. 64

WASTEWATER RECLAMATION
Santee project continues to show the way ..... May 40

WASTEWATER TREATMENT
New sewage technology tested atop Pikes Peak ..... Nov. 54

WATER POLICY
Limits, constraints, and requirements for water pollution control .... Sept. 48

WATER POLLUTION CONTROL
Limits, constraints, and requirements for water pollution control .... Sept. 48
Regional action: Key to the future of San Francisco Bay/1 ..... May 45
Regional action: Key to the future of San Francisco Bay/2 ..... June 70

WATER QUALITY
Limits, constraints, and requirements for water pollution control ..... Sept. 48
Probabilistic consideration in water quality management ..... Oct. 50
Water quality and instream aeration ..... Sept. E-23

Water quality changes in the distribution system ..... Jan. 35

WATER RESOURCES
Agriculture faces new challanges in current environmental crisis ..... Nov. F-14
A livable environment . . . Mission for the seventies ..... May 48
An industrialist's concern for the environment ..... Oct. 58
Computer aids in CRAG water plan . Apr. 49
We are not running out of water/1 . July D-6

WATER REUSE
Activated carbon reclaims water for carpet mill ..... May C-22
Advanced waste treatment in Nassau County, N. Y. ..... Feb. 38
Reverse osmosis offers useful technique for desalting ..... Jan. A-5
Santee project continues to show the way ..... May 40
Wastewater reclamation and reuse . . July 46
Water conservation and reuse by industry ..... Jan. A-17
60% population jump by year 2000 demands attention now to water problems. ..... Dec. 34

WATER SOFTENING
Disposal of waste sludge from water softening plants ..... Aug. 33

WATER SUPPLY (GENERAL)
Chicago plans for adequate water supply ..... June 62
Design and operation of large desalting plants ..... Feb. 35
Ten years from today is now! ..... Dec. 36
The Scarsdale, N. Y., water department ..... Nov. 41
Washington's water supply ..... June 58
We are not running out of water/1 ..... July D-6
We are not running out of water/2 ..... Sept. E-16
60% population jump by year 2000 demands attention now to water problems. ..... Dec. 34

ZETA POTENTIAL
Technologies in coagulation ..... Jan. 42
